THIS DOCUMENT OF THE UNITED AND 794, OP 17 LATION OF 17s PROMISSITED BY	CONTAINS IMPORMATION APPECTURE THE STATES, UTHIN THE WEARING PTITLS SE U.S. CODE, AS AMERICO. ITS TRAN CONTENTS TO OR RECEIFT BY AN UNGAU'L LAB. THE REPRODUCTION OF THIS FOR	MATIONAL DEFENSE 18, accidence 793 whisping on Afve. Morizzo Person is mis prohisivo.	THIS IS UP	NEVALUATED INFORM	ATION 50X1
1.	The wartime T/O st	rength of the 12th	Guards Mechani	zed Division is 14	50× 500•
	The peacetime T/O	tely 9,000. This largetees. Although	larger number of the unit is no	f 9,000 is due to tequipped at full	the inclu-
2.	The peacetime T/0 was approxima sion of rotating d strength the equip	tely 9,000. This I raftees. Although ment is available in average strength came as the 12th Med 500, peacetime T/O for an a. A tank division ime T/O of about 5,	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime	f 9,000 is due to t equipped at full s. division inside to on at Brest; that an actual strength ion is the same as strength of appro	the inclu- wartime  50> he USSR is, a of for a ximately
2.	The peacetime T/O was approximated astrongth the equipment of the sequence of	tely 9,000. This I raftees. Although ment is available in average strength came as the 12th Med 500, peacetime T/O for an a. A tank division ime T/O of about 5,	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime	f 9,000 is due to t equipped at full s. division inside to on at Brest; that an actual strength ion is the same as strength of appro	the inclu- wartime  50> he USSR is, a of for a ximately
	The peacetime T/O was approximated astrongth the equipment of the sequence of	tely 9,000. This I raftees. Although ment is available in average strength came as the 12th Med 500, peacetime T/O for an a. A tank division ime T/O of about 5,	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime	f 9,000 is due to t equipped at full s. division inside to on at Brest; that an actual strength ion is the same as strength of appro	the inclu- wartime  50> he USSR is, a of for a ximately
	The peacetime T/O was approximated astrongth the equipment of the sequence of	tely 9,000. This I raftees. Although ment is available in average strength came as the 12th Med 500, peacetime T/O for an a. A tank division ime T/O of about 5,	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime	f 9,000 is due to t equipped at full s. division inside to on at Brest; that an actual strength ion is the same as strength of appro	the inclu- wartime  50) he USSR is, a of for a ximately
	The peacetime T/O was approximate sion of rotating distrength the equipment of the second strength the second seco	tely 9,000. This I raftees. Although ment is available in average strength came as the 12th Med 500, peacetime T/O for an a. A tank division ime T/O of about 5,	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime	f 9,000 is due to t equipped at full s. division inside to on at Brest; that an actual strength ion is the same as strength of appro	the inclu- wartime  50) he USSR is, a of for a ximately
	The peacetime T/O was approximated approximately 9,000 mechanized division 8,000 and a peacettapproximately 5,000	tely 9,000. This is raftees. Although nent is available is average strength of the same as the 12th Med 500, peacetime T/O for an a. A tank division ime T/O of about 5,0 - 6,000.	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and a infantry division has a wartime, 300. The present	f 9,000 is due to t equipped at full s.  division inside to at Brest; that an actual strength ion is the same as strength of appropent strength, howe	the inclu- wartime  50) he USSR is, a of for a ximately ver, is 50)
	The peacetime T/O was approximated approximately 9,000 mechanized division 8,000 and a peacettapproximately 5,000	tely 9,000. This is raftees. Although ment is available is average strength of ame as the 12th Med 500, peacetime T/O for an in. A tank division ime T/O of about 5,0 - 6,000.	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime, 300. The present the USSR have a	f 9,000 is due to t equipped at full s.  division inside to at Brest; that an actual strength ion is the same as strength of appropent strength, howe	the inclu- wartime  50> he USSR is, a of for a ximately ver, is 50>  50X
3.	The peacetime T/O was approximated astrongth the equipment of the second	tely 9,000. This is raftees. Although ment is available is average strength of ame as the 12th Med 500, peacetime T/O for an in. A tank division ime T/O of about 5,0 - 6,000.	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime, 300. The present the USSR have a me reason is the	f 9,000 is due to t equipped at full s.  division inside to at Brest; that an actual strength ion is the same as strength of appropriate the same as strength, hower approximately the approximately the same as strength.	the inclu- wartime  50> he USSR is, a of for a ximately ver, is 50>  50X
3.	The peacetime T/O was approximated astrongth the equipment of the second	tely 9,000. This is raftees. Although ment is available is average strength of ame as the 12th Med 500, peacetime T/O for an in. A tank division ime T/O of about 5,0 - 6,000.	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime, 300. The present the USSR have a me reason is the	f 9,000 is due to t equipped at full s.  division inside to at Brest; that an actual strength ion is the same as strength of appropriate the same as strength, hower approximately the approximately the same as strength.	the inclu- wartime  50> he USSR is, a of for a ximately ver, is 50>  50X
3.	The peacetime T/O was approximated astrongth the equipment of the second	tely 9,000. This is raftees. Although ment is available is average strength of ame as the 12th Med 500, peacetime T/O for an in. A tank division ime T/O of about 5,0 - 6,000.	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime, 300. The present the USSR have a me reason is the	f 9,000 is due to t equipped at full s.  division inside to at Brest; that an actual strength ion is the same as strength of appropriate the same as strength, hower approximately the approximately the same as strength.	the inclu- wartime  50> he USSR is, a of for a ximately ver, is 50>  50X
3.	The peacetime T/O was approximated astrongth the equipment of the second	tely 9,000. This is raftees. Although ment is available is average strength of ame as the 12th Med 500, peacetime T/O for an in. A tank division ime T/O of about 5,0 - 6,000.	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime, 300. The present the USSR have a me reason is the	f 9,000 is due to t equipped at full s.  division inside to at Brest; that an actual strength ion is the same as strength of appropriate the same as strength, hower approximately the approximately the same as strength.	the inclu- wartime  50> he USSR is, a of for a ximately ver, is 50>  50X
3.	The peacetime T/O was approximated astrongth the equipment of the second	tely 9,000. This is raftees. Although ment is available is average strength of ame as the 12th Med 500, peacetime T/O for an in. A tank division ime T/O of about 5,0 - 6,000.	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime, 300. The present the USSR have a me reason is the	f 9,000 is due to t equipped at full s.  division inside to at Brest; that an actual strength ion is the same as strength of appropriate the same as strength, hower approximately the approximately the same as strength.	the inclu- wartime  50> he USSR is, a of for a ximately ver, is 50>  50X
3.	The peacetime T/O was approximated astrongth the equipment of the second	tely 9,000. This is raftees. Although ment is available is average strength of ame as the 12th Med 500, peacetime T/O for an in. A tank division ime T/O of about 5,0 - 6,000.  A sions deep within on the borders. The of training.	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime, 300. The present the USSR have a sereason is the sereason i	f 9,000 is due to t equipped at full s.  division inside to at Brest; that an actual strength ion is the same as strength of appropriate the same as strength, hower approximately the approximately the same as strength.	the inclu- wartime  50> he USSR is, a of for a ximately ver, is 50>  50X
3.	The peacetime T/O was approximated astrongth the equipment of the sequence of 14, approximately 9,000 mechanized division 8,000 and a peacett approximately 5,000 divisors an equitable burder of the peacetime of the sequence of the peacetime of the sequence of the sequence of the peacetime of the sequence of the sequ	tely 9,000. This is raftees. Although ment is available is average strength of ame as the 12th Med 500, peacetime T/O for an in. A tank division ime T/O of about 5,0 - 6,000.  A sions deep within on the borders. The of training.	larger number of the unit is not in supply depote of a mechanized chanized Division of 6,500, and infantry division has a wartime, 300. The present the USSR have a me reason is the	f 9,000 is due to t equipped at full s.  division inside to at Brest; that an actual strength ion is the same as strength of appropriate the same as strength, hower approximately the approximately the same as strength.	the inclu- wartime  50> he USSR is, a of for a ximately ver, is 50>  50X
